## *Management of regression after LASIK*

Is it regression?

When to correct?

What is the method?

How to correct?

### Is it regression?

1.Exclude  
ectasia

2.Exclude other  
causes

## Incidence

0.02% to 0.4%

1 week to several years

Giri P, Azar DT. Risk profiles of ectasia after keratorefractive surgery. Curr Opin Ophthalmol 2017; 28(4):337-342.

### Is it regression?

1.Exclude  
ectasia

2.Exclude other  
causes

Cataract  
Diabetes  
Drug induced myopia

Transient Drug-Induced Myopia

Kaimbo DKW

Department of Ophthalmology and Biophysics, University of Kinshasa, Congo

> Prescrire Int. 2003 Feb;12(63):22-3.

Drug-induced myopia

 المؤتمر السنوي الدولي للجمعية الرمدية المصرية

**EGYPTIAN OPHTHALMOLOGICAL SOCIETY**

**When to correct?**

Management of regression after LASIK

Khaled Abdelazeem

**EOS 2023**

 المؤتمر السنوي الدولي للجمعية الرمدية المصرية  
 INTERNATIONAL CONGRESS OF THE  
**EGYPTIAN OPHTHALMOLOGICAL SOCIETY**

**When to correct?**

1. After stability
2. Evaluate the cornea

To exclude ectasia

To avoid more regression

Management of regression after LASIK

Khaled Abdelazeem

**EOS 2023**

When to correct?

- 1. After stability
- 2. Evaluate the cornea

# Pentacam ± Topography

- Corneal thickness
- Curvature
- Asphericity
- Elevations
- Decentered ablation

When to correct?

- 1. After stability
- 2. Evaluate the cornea

# Do you have the preoperative and operative data ???

Compare Pentacam

- Flap thickness
- Residual stroma
- Flap related complications

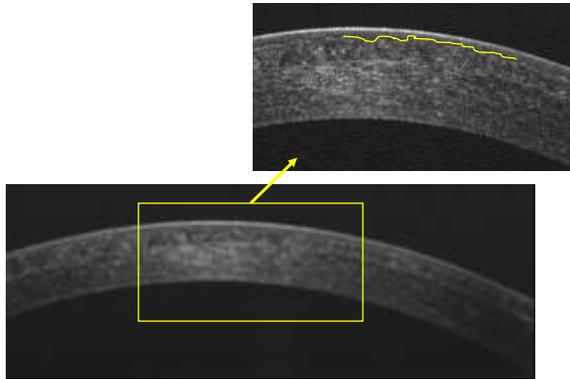

**When to correct?**

- 1. After stability
- 2. Evaluate the cornea

**AS-OCT**

**Microstriae**

Relevance of Swept-Source Anterior Segment Optical Coherence Tomography for Corneal Imaging in Patients With Flap-Related Complications After LASIK

*Khaled Abdelazeem, MD,\*\* Mohamed Shariq, MD,\*\* Mohamed G. A. Saleh, MD,\*\* Ahmed M. Fakhro, MD, FRCOphth,\*\* and Wael Sobhan, MD, PhD\*\**

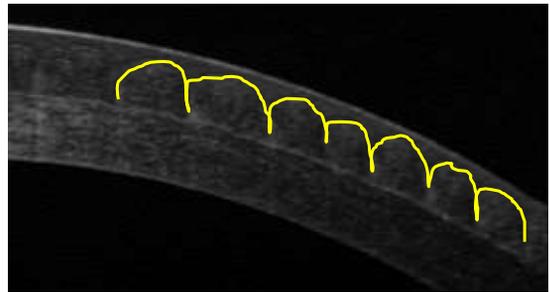

**When to correct?**

- 1. After stability
- 2. Evaluate the cornea

**AS-OCT**

**Macrostriae**

Relevance of Swept-Source Anterior Segment Optical Coherence Tomography for Corneal Imaging in Patients With Flap-Related Complications After LASIK

*Khaled Abdelazeem, MD,\*\* Mohamed Shariq, MD,\*\* Mohamed G. A. Saleh, MD,\*\* Ahmed M. Fakhro, MD, FRCOphth,\*\* and Wael Sobhan, MD, PhD\*\**

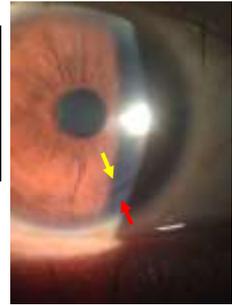

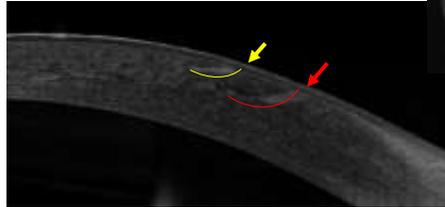

**When to correct?**

- 1. After stability
- 2. Evaluate the cornea

**AS-OCT**

**Incomplete cut with 2 flaps**

Relevance of Swept-Source Anterior Segment Optical Coherence Tomography for Corneal Imaging in Patients With Flap-Related Complications After LASIK

*Khaled Abdelazeem, MD,\*†, Mohamed Shany, MD,\*†, Mohamed G. A. Saleh, MD,\*†, Ahmed M. Fakhro, MD, FRCOphth,\*† and Wael Sobhan, MD, PhD,\*†*

**When to correct?**

- 1. After stability
- 2. Evaluate the cornea

**AS-OCT**

**Button hole  
Irregular flap  
Irregular stroma**

Khaled Abdelazeem

EOS 2023

المؤتمر السنوي الدولي للجمعية الرمادية المصرية  
INTERNATIONAL CONGRESS OF THE  
GYPTIAN OPHTHALMOLOGICAL SOCIETY

**What is the method?**

**Cornea**

1. LASIK
2. PRK

**Lens**

1. ICL
2. RLE

**LASIK**

- Lifting the old flap
- Topography guided / wavefront guided in some cases

Management of regression after LASIK

Khaled Abdelazeem

EOS 2023

### What is the method?

#### Cornea

1. LASIK
2. PRK

#### Lens

1. ICL
2. RLE

## When to prefer PRK

- Inadequate residual stromal bed after proposed retreatment
- Decentered, incomplete, irregular or severely striated flap
- Superficial scarring or scarring of the flap edge
- Failure of flap lifting

### What is the method?

#### Cornea

1. LASIK
2. PRK

#### Lens

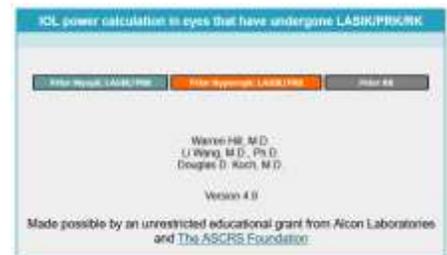

1. ICL
2. RLE
