HOME MESSAGE

- Take care of prostate treatment.
- Think outside the box.
- Give the best care for the patient.
- Think what the patient will see after your surgery.

Last minute complications

- **Be aware of any abnormal behavior during your surgery even in the last minute.**
- **Think outside the box.**
- **In previously injected eyes with Intravitreal AntiVGFH be aware of zonular dehiscence .**
- **CTR saves a lot.**

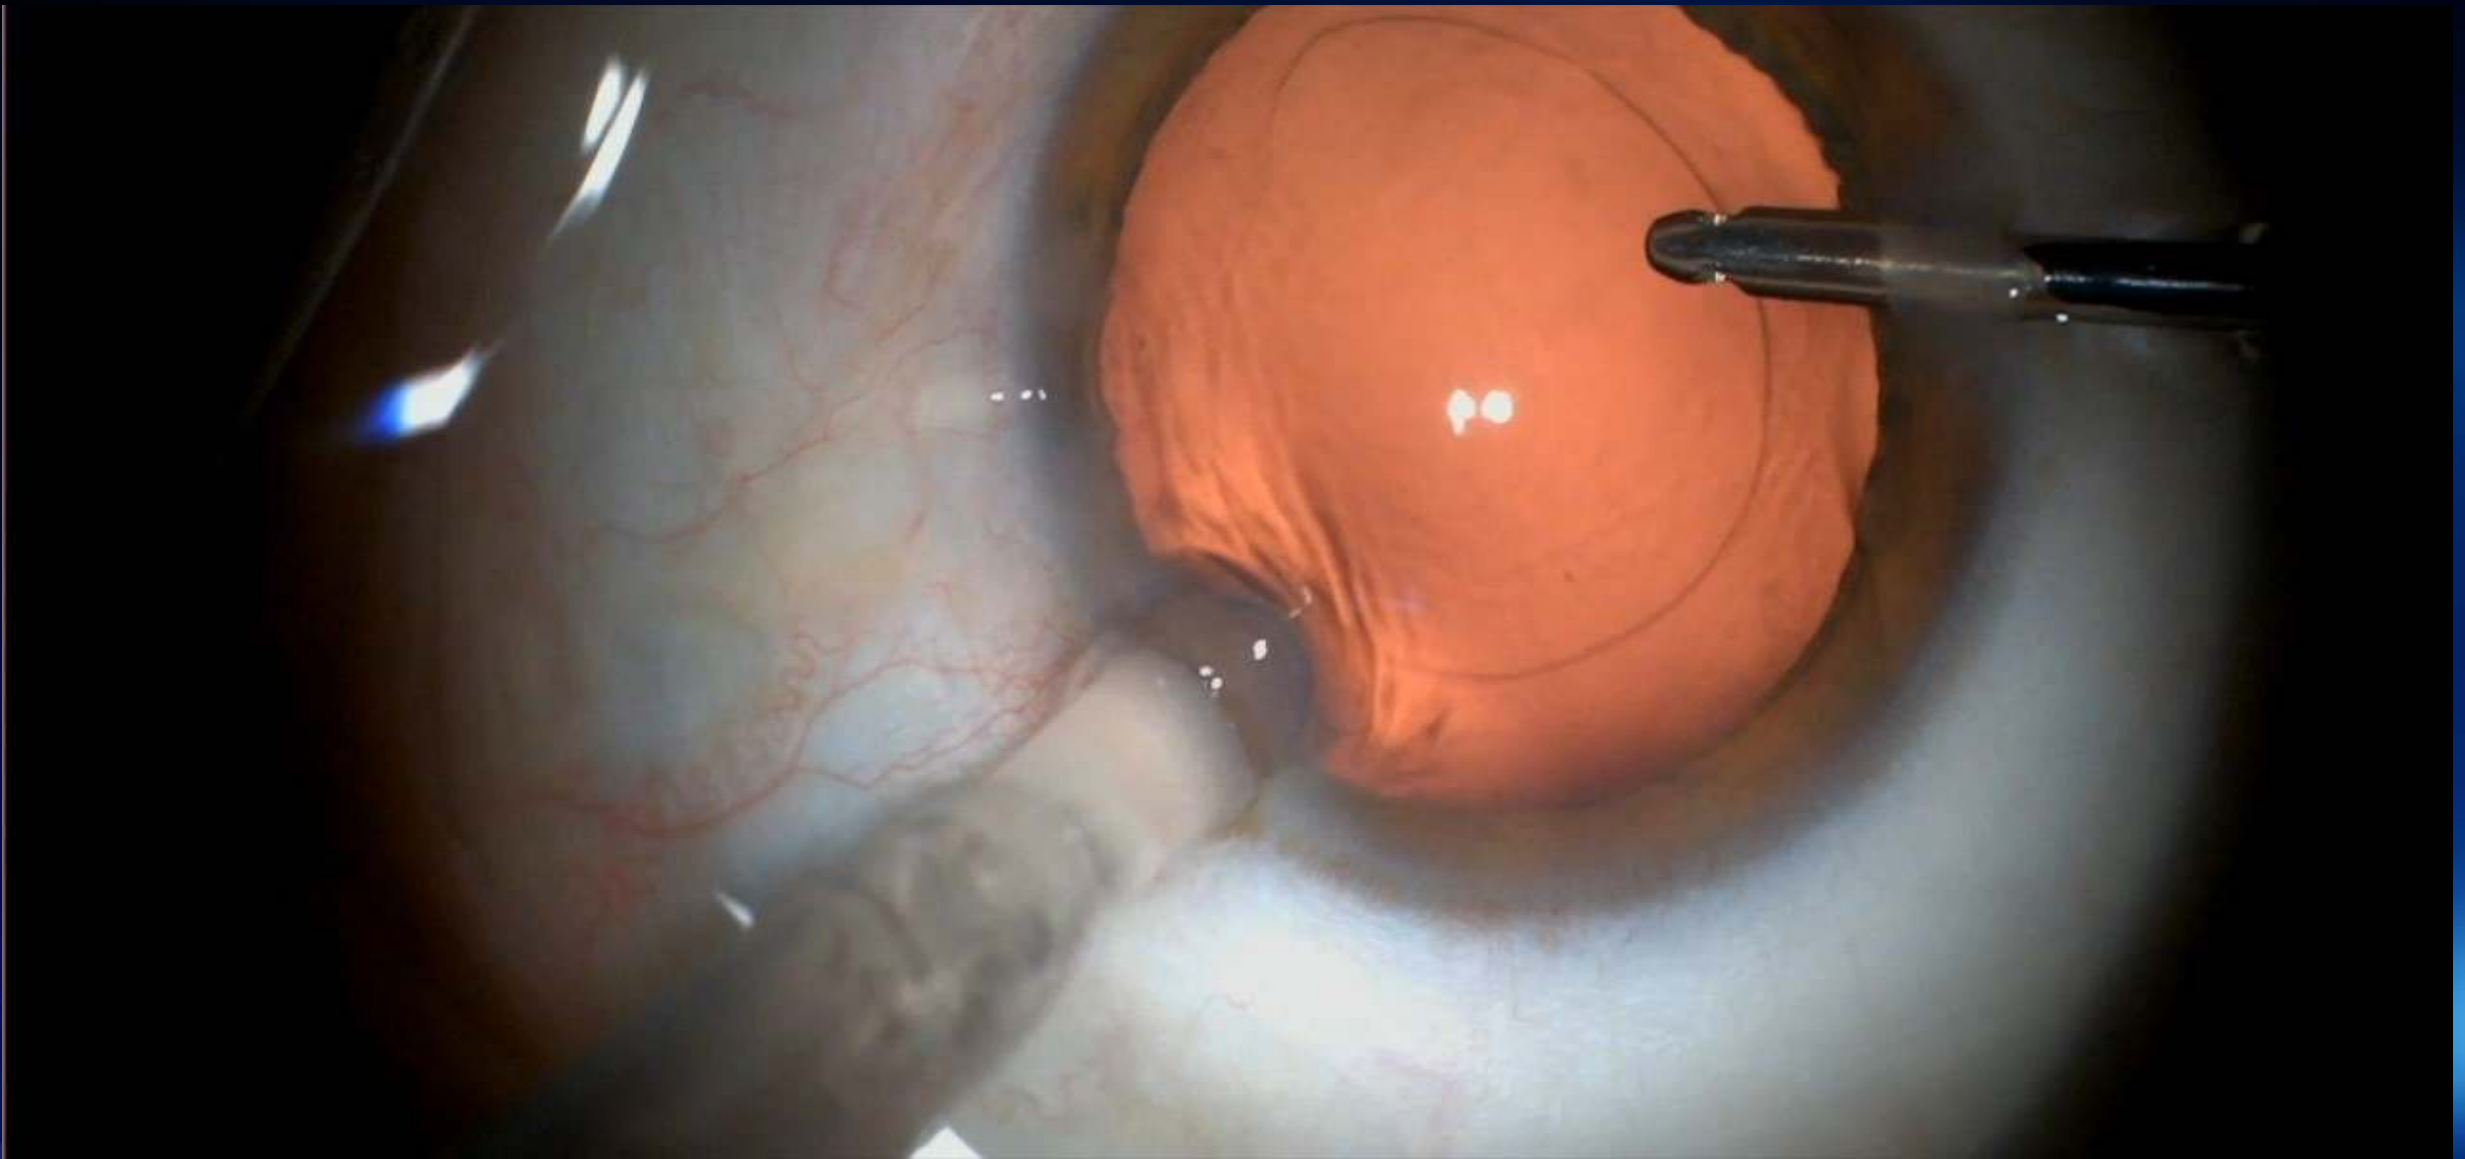

Iatrogenic Zonular dehescience
